2019 GPUS Annual Budget

Budget proposed for 2019 is roughly equivalent to 2018, yet due to staff reductions in the early part of 2018, resources have been reallocated from staff line to caucuses and committees. That said, there is still an increase in the staff line with a goal of hiring one additional Full Time Employee (FTE). As with the 2017 budget, this budget aims to be balanced, in that expenses are equivalent to expected revenue. (See Dec. Agenda for more information).
